JotForm V4: Collaborative, mobile and better than your current forms tool

Have suggestions for products that you'd like to see reviewed by our real estate technology expert? Email Craig Rowe. JotForm is a digital forms creation tool. Platforms: Browser-based; mobile-optimized Ideal for: Any agent or team looking for an affordable document/forms tool; professionals not happy with most common forms solutions Top selling points User interface Array of forms Built-in features Mobile form design Top concerns Not industry-specific; many CRMs and real estate business tools come standard with forms tools. What you should know I introduced readers to JotForm in 2015. At the end of 2016, the company had dramatically overhauled its already fun and intuitive form-building solution, calling it JotForm V4, or version 4.0. JotForm can build any type of digital and print-ready form, from simple website "Contact Us" embeds to advanced lead generation templates. There are more than 700 templates in the "Business" category alone. JotFo...
